

## **CPQ Quote to Cash Quick Start**

Quick Starts help speed the implementation and adoption of Salesforce Cloud Technology. In many cases they provide a first introduction to a new way of servicing your customers, whilst delivering improved efficiency and productivity for Sales and Service.

The Quick Start focusses primarily on leveraging Salesforces Declarative (Low-Code) functionality to achieve improved performance. This powerful functionality can satisfy most business needs. Whilst some task areas are outside the scope of a Quick Start, the process can identify which task areas may need a full coding approach (see below) and we will price these accordingly within the same reasonable pricing model used for Quick Starts.

| Tasks - Functional Areas                             | Quick Start | Quick Start Plus |
|--|-------------|------------------|
|  |             |                  |
| Discovery/Business Process Review                    |             |                  |
| Workshop to Map CPQ Processes                        | ٧           | ٧                |
| Products, Bundles, Quotes, Discounts etc.            | ٧           | ٧                |
| Preparation of CPQ Process Document                  | ٧           | ٧                |
| Sign-off on Requirements Document                    | ٧           | ٧                |
|  |             |                  |
| Kick Off Session - Roles and Responsibilities        |             |                  |
| 2-3 Hours to define responsibility and timeline      | ٧           | ٧                |
| Sponsor, Admin, Internal team responsibilities       |             |                  |
| Security and Access                                  |             |                  |
| Install Salesforce CPQ package                       | ٧           | ٧                |
| Configure User Profiles                              | Up to 5     | 8                |
| Create CPQ sandbox environment                       | ٧           | ٧                |
| <b>CPQ Application Configuration Product Bundles</b> |             |                  |
| Bundles  | Up to 6     | 10               |
| Bundle Options Total                                 | Up to 50    | 70               |
| Product Features                                     | Up to 20    | 30               |
| Configuration or Pricing Rules                       | Up to 5     | 8                |
|  |             |                  |
| CPQ Application Configuration Pricing                |             |                  |

|   | _                      |                        |
|---|------------------------|------------------------|
| Discount Schedules                        | 2                      | 4                      |
| Block Prices                              | 2                      | 4                      |
| Subscription                              | 2                      | 4                      |
| Enable Discretionary Discounting          | ٧                      | ٧                      |
|   |                        |                        |
| <b>Automations of Business Processes</b>  |                        |                        |
| Custom Workflows                          | 10                     | 15                     |
| Quote Approval Process                    | 1                      | 2                      |
| Validation Rules                          | 3                      | 5                      |
| Enable Multi-Currency if required         | ٧                      | ٧                      |
| Quote Template (English language)         | 1                      | 2                      |
|   |                        |                        |
| Data Import                               |                        |                        |
| Import of records                         |                        | Priced Separately      |
| Provide guidance for Data Input           | ٧                      | ٧                      |
| Data Cleaning / Preparation               | <b>Customer Action</b> | <b>Customer Action</b> |
|   |                        |                        |
| Go Live / User Training – Max 10 people   |                        |                        |
| User Acceptance Training( UAT) ( Hours)   | 7                      | 12                     |
| System Administration Training (Hours)    | 4                      | 7                      |
| Follow Up Support ( Days) - Email Support | 10                     | 15                     |
| On Site Training                          | Travel costs           | Travel costs           |
|   |                        |                        |

Areas that are generally outside the scope of a Quick Start:-

- Specific code and low code external interactions
- Integration with external system
- Specialist areas with the cloud functionality that require more time to implement. Example may include:
  - Salesforce Knowledge
  - Forecasting
  - Territories
  - Multicurrency
  - Social Sign-On
  - Developing HTML or CSS
- Design of templates beyond standard functionality
- Apex coding , Visualforce pages, Lightning Web components
- Data Migration: Data population, preparation and cleansing. However guidance and uploading is provided. Large data migration may incur additional costs.

Any of the above requirements can be discussed prior to project assignment and priced reasonably.
